

Signing into YouTube or creating a YouTube account

Cedar Park United is switching from Facebook Live to YouTube Live for Sunday morning worship starting on November 14, 2021. We've created this 6-step instruction document to help you be ready to participate in worship after the switch.

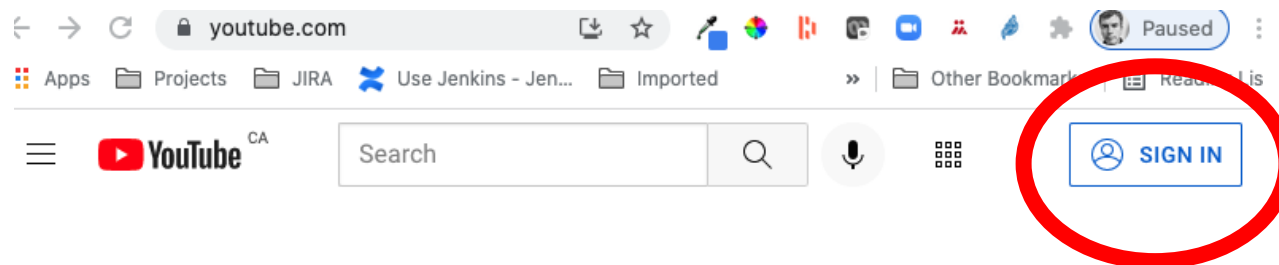

You can watch the worship livestream without a YouTube account, but if you'd like to participate in the live chat, you'll need to sign into YouTube (just as you had to sign into Facebook in order to chat).

YouTube is a service provided by Google, so if you already have a Gmail account, you can use the same account to sign into YouTube.

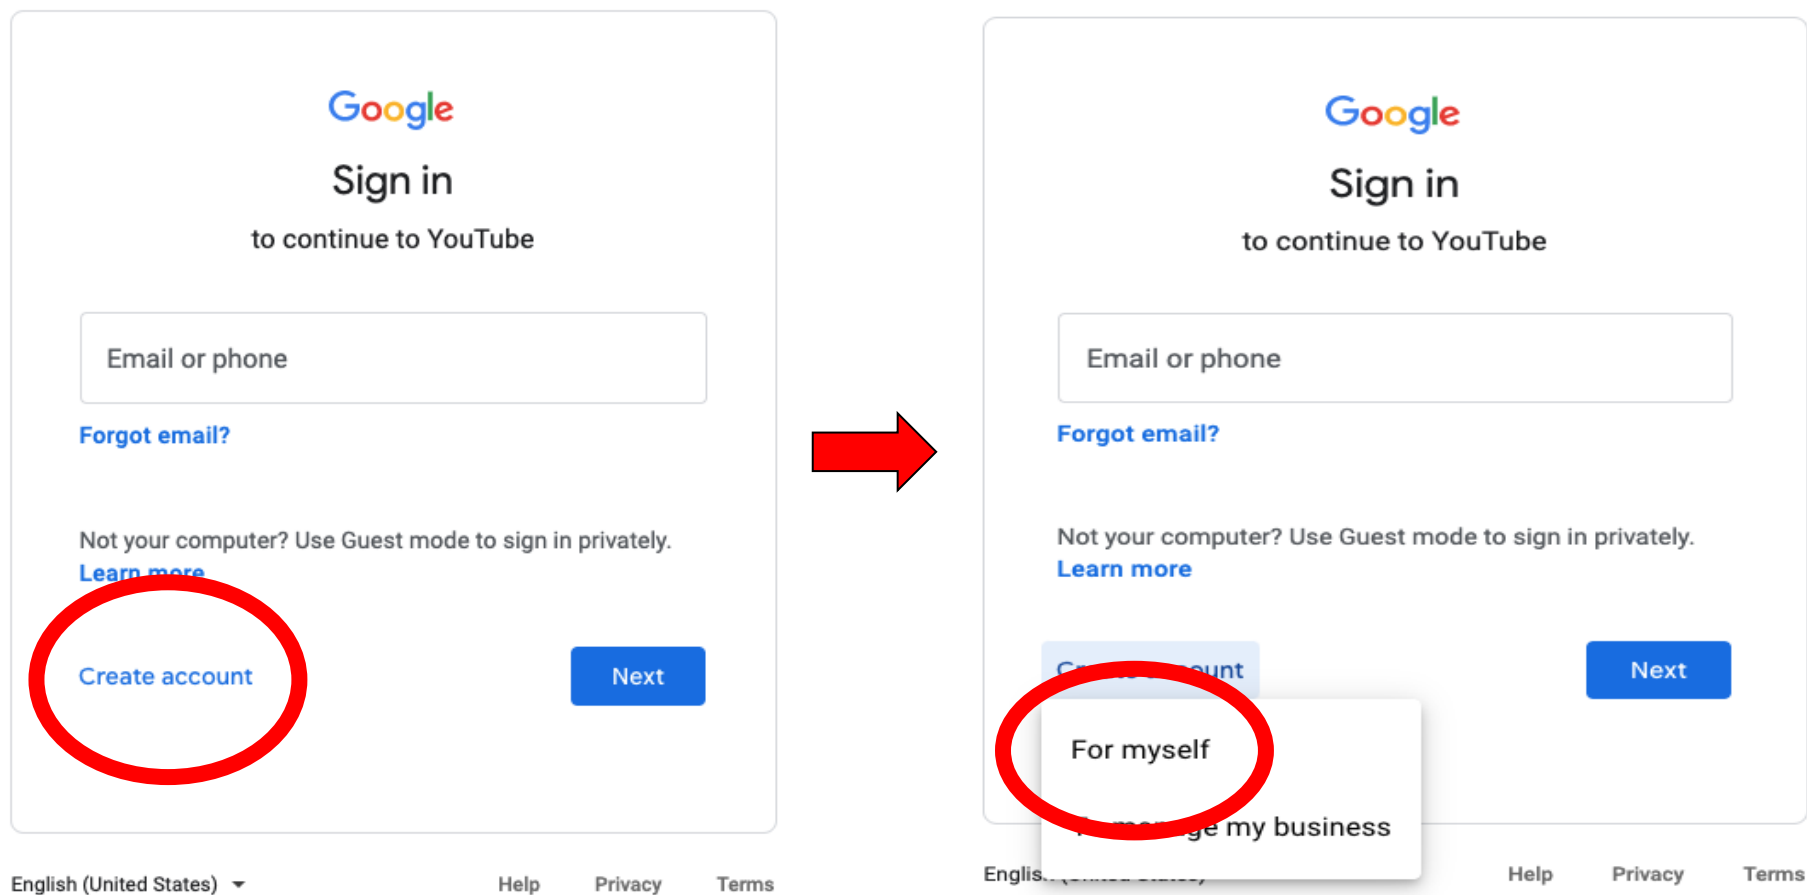

If you don't have a Gmail account, and would prefer not to create one, you can create a YouTube/Google account using another email address. The steps to do so are outlined below. Note that this new account will also give you access to other Google services, such as Drive, but not to Gmail.

How to sign into YouTube or create a new account:

1. Go to [Youtube.com](https://www.youtube.com) and click on the SIGN IN button on the top right.

2. On the Sign in page, enter your Gmail account credentials, or click on Create account to create a new account. Under "Create account" choose "For myself".

3. Enter your own name and email credentials.

Google will send a verification code to your email address. Enter it in the space provided.

4. You need to give Google an age so that you won't receive inappropriate content.
You can provide a mobile phone number if you'd like to set up two-factor authentication, but it isn't required.
If you do provide a phone number, then you will have to enter the verification code that Google sends you via SMS text.
